# MADERASTONE PAVERS

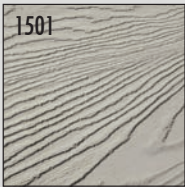

11 7/8" x 47 7/8" x 2 1/2"

23 7/8" x 23 7/8" x 2"  
False Joint

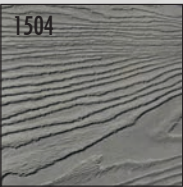

SHORT FORM SPECIFICATION
Sizes: All sizes are nominal
Material: 5,000 PSI Hardrock Concrete, Type III Cement
Finish: Maderastone (wood grain look)
See Paver Details for more information; visit <a href="http://stepstoneinc.com">stepstoneinc.com</a>

Made to live like wood and last like concrete. Two different wood grain patterns are mixed in random combinations to create the look and texture of lumber. Stepstone's Maderastone is strong, natural, and lasting and, it won't splinter.

# HEXAGONAL PAVERS

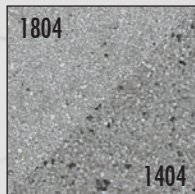

SHORT FORM SPECIFICATION
Sizes: 16" sizes are 2" thick; 20" and 24" sizes are 2 1/2" thick; all sizes are nominal
Material: 5,000 PSI Hardrock Concrete, Type III Cement
Finish: Sandblast or Exposed Aggregate
See Paver Details for more information; visit <a href="http://stepstoneinc.com">stepstoneinc.com</a>

This six sided retro-new paver shape will enhance a patio, walkway, or most any pedestrian space with classic styling. Hexagonal pavers come in an assortment of sizes all with coordinated flat-half and point-half connecting pieces that are used to create linear transitions and finished edges to the design.

# LIGHTWEIGHT ROOF PAVERS

## SHORT FORM SPECIFICATION

Sizes: 24" x 24" x 2 1/2" (Typical); all sizes are nominal

Material: 5,000 PSI Hardrock Concrete, Type III Cement

Laminated to 25 PSI Compressive Strength/2# density EPS

Finishes: Sandblast & Exposed Aggregate

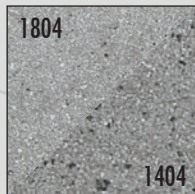

See Roof Paver Details for more information; visit [stepstoneinc.com](http://stepstoneinc.com)

Lightweight Roof Pavers (12 PSF) were designed for applications where an existing roof or new roof requires a lighter load. Cast with 1" of concrete laminated to 1 1/2" of expanded polystyrene foam, these pavers have the look of a full weight roof paver but weigh in at roughly half the load.

# TRUNCATED DOME PAVERS

Short Form Specification	
Sizes:	12" x 12" x 2"      12" x 12" x 4" 24" x 24" x 2"      24" x 36" x 2 1/2" All sizes are nominal
Material: 5,000 PSI Hardrock Concrete, Type III Cement	
Finishes: Stippled or Sandblast	
Orientation of domes on cast pavers is $\pm 1/16"$ of specified dimensions All Dimensions listed here are intended to meet ADA specifications. Confirm with local building codes/officials before installation. Designed to be installed with a 1/8" joint.	

Provide a detectable warning surface in paving transition areas with Stepstone's Truncated Dome Pavers. Available in several practical and complementary colors to provide an aesthetic visual and detectable transition.

Stepstone strongly recommends that you make your color selection using actual color concrete samples.

# CALARC PRODUCT LINE

stepstoneinc.com 800.572.9029

CALARC®

PLEASE NOTE: All of our products are made by hand from natural materials. Variations in color are to be expected. To confirm color, please refer to actual concrete samples before placing order. Shipping may result in minor chipping. This is not detrimental to appearance or function. Stepstone, Inc. recommends sealing to aid in grout removal and cleaning prior to installation. Grout naturally will bond with concrete. Immediately remove any grout slurry that comes in contact with the finished face of the precast concrete pieces. All sizes are nominal. See details for further information. Available in other standard colors. **See actual color concrete samples before ordering** This material is copyrighted and is intended solely for the use of customers of Stepstone, Inc.

12-2019
